PROJECTS

Cybersecurity Concentration | Partnership with QUANTI

Monterrey, Nuevo León | August 2022 - December 2022

School concentration. Quanti gave us a challenge to design a SOC in 17 weeks and we focused in the three major components: people, processes and technology. Ultimately my team won the first place.

Backend in a web app | Partnership with Ternium

Monterrey, Nuevo León | February 2022 - June 2022

School project. Worked in NoSQL Database (MongoDB) and Rest API (Django).

Backend in a mobile app | Partnership with Caritas MTY

Monterrey, Nuevo León | September 2021 - December 2021

School project. Worked in TSQL Database (Azure), WebAPI (Express.js) . The app was selected by Caritas MTY as the most complete and faultless from the group.

Backend in an online video game | Partnership with Ternium

Monterrey, Nuevo León | February 2021 - May 2021

School project. Worked in TSQL Database (Azure), WebAPI (Express.js) and Unity. The project was selected as one the best within the class.
